

Experiment 2: Flight Reservation System using SaaS

Aim

To create a cloud-based Flight Reservation System using a Cloud Service Provider and demonstrate SaaS.

Procedure

Login to Zoho Creator or another cloud platform.

Create a new application named “Flight Reservation System.”

Design forms for Passenger Details, Flight Details, and Ticket Booking.

Add fields such as Passenger Name, Flight Number, Source, Destination, Date, and Seat Number.

Create reports for reservation details.

Configure booking workflows.

Deploy the application to the cloud.

Enter sample reservation records.

Verify booking and report generation.

Result

A cloud-based Flight Reservation System was successfully developed and deployed, demonstrating Software as a Service (SaaS).
