

Experiment 4: Car Booking Reservation System

Aim

To create a cloud-based Car Booking Reservation System using a Cloud Service Provider and demonstrate SaaS.

Procedure

Login to Zoho Creator.

Create a new application named "Car Booking Reservation System."

Design forms for Customer Registration, Car Details, and Booking Details.

Add fields such as Customer Name, Car Model, Booking Date, Pickup Location, and Return Date.

Create reports for booking information.

Configure booking confirmation workflows.

Deploy the application to the cloud.

Enter sample booking records.

Verify booking status and report generation.

Result

A cloud-based Car Booking Reservation System was successfully developed and tested, demonstrating Software as a Service (SaaS).
